THE CORE LESSON

Don't wait for "ONE DAY" - Make TODAY that day.

MOTIVATION TRIANGLE

PURPOSE (why) + PROGRESS (wins) + PEOPLE (support)

MOTIVATION EQUATION

$(\text{Expectancy} \times \text{Value}) / (\text{Impulsiveness} \times \text{Delay})$

5 PRACTICAL STRATEGIES

1. 2-Minute Rule: Start any goal in 2 minutes
2. Temptation Bundling: Pair need with want
3. Implementation Intentions: "When X, I will Y"
4. Progress Principle: Track and celebrate small wins
5. Social Commitment: Accountability increases success

TIME MANAGEMENT TRUTH

You don't manage TIME - you manage ATTENTION, ENERGY, MOOD

LAW OF CONTROL

Self-determined tasks = IN CONTROL ✓

Reactive tasks = OUT OF CONTROL ✗

CHANGE YOUR SELF-CONCEPT

1. Decisiveness: "I WILL practice this"
2. Visualization: See yourself efficient & calm
3. Act As If: "How would organized ME handle this?"

4 CRITICAL QUESTIONS FOR ANY GOAL

1. What obstacles stand in my way?
2. What must I learn?
3. Whose help do I need?
4. Who is the most important person? (Often: YOU)

WHEN MOTIVATION DROPS

1. Notice the dip
2. Reconnect to WHY
3. Shrink the task
4. Get one small win
5. Celebrate it
