PART 1: THE LIFE MANAGEMENT FRAMEWORK

The Three Pillars of Life Management

You don't manage TIME. You manage:

1. **ENERGY** → Your physical and mental fuel
2. **ATTENTION** → Your focus and priority choices
3. **PURPOSE** → Your direction and meaning

The Law of Control

▮ "You feel good about yourself to the degree you feel IN CONTROL of your life."

Self-Determined Actions ✓

(Goal-oriented, planned, chosen)

→ Positive feelings, sense of control

Reactive Responses ✗

(External pressure, urgent but unplanned)

→ Out of control feeling, stress

The Four D's of Transformation

D	Meaning	Your Commitment
DESIRE	Burning need to change	What do you deeply want to change?
DECISIVENESS	Clear commitment to practice	What have you decided to do?
DETERMINATION	Face all temptations	What obstacles will you face?
DISCIPLINE	Force yourself when needed	What's your backup plan?

👉 REFLECTION EXERCISE: My burning desire is to:

I commit to practicing: _____

🎯 PART 2: PRIORITY & DECISION TOOLS

The Eisenhower Matrix

	URGENT	NOT URGENT
IMPORTANT	DO FIRST • Crises • Deadlines • Emergencies	SCHEDULE • Planning • Learning • Relationships
NOT IMPORTANT	DELEGATE • Interruptions • Some calls/emails • Other's priorities	ELIMINATE • Time wasters • Busy work • Excessive social media

👉 EXERCISE: Categorize Your Top 10 Tasks

List your current tasks and categorize them:

#	Task Description	Quadrant (1-4)
1.	_____	_____
2.	_____	_____
3.	_____	_____
4.	_____	_____
5.	_____	_____
6.	_____	_____
7.	_____	_____
8.	_____	_____
9.	_____	_____
10.	_____	_____

Action: Circle tasks in Quadrant 2 (Important but Not Urgent) - these need more time!

The Pareto Principle (80/20 Rule)

20% of your actions produce 80% of your results.

👉 **EXERCISE: Identify Your High-Impact 20%**

What activities consistently produce the best results in your:

Career: _____

Health: _____

Relationships: _____

Action Plan: Schedule MORE time for these high-impact activities!

Eat the Frog Technique

Do the hardest/most important task FIRST thing in the morning.

👉 **EXERCISE: Tomorrow's Frog**

My "frog" for tomorrow (the task I'm most likely to avoid):

Time I'll tackle it: _____ AM/PM

Why this is important: _____

 PART 3: EXECUTION SYSTEMS

Time Blocking Template

Instructions: Divide your day into dedicated blocks for specific activities.

Time Block	Activity/Focus Area	Notes
6:00 - 7:00 AM	_____	_____
7:00 - 8:00 AM	_____	_____
8:00 - 9:00 AM	_____	_____
9:00 - 10:00 AM	_____	_____
10:00 - 11:00 AM	_____	_____
11:00 AM - 12:00 PM	_____	_____
12:00 - 1:00 PM	_____	_____
1:00 - 2:00 PM	_____	_____
2:00 - 3:00 PM	_____	_____
3:00 - 4:00 PM	_____	_____
4:00 - 5:00 PM	_____	_____
5:00 - 6:00 PM	_____	_____
6:00 - 7:00 PM	_____	_____
7:00 - 8:00 PM	_____	_____
8:00 - 9:00 PM	_____	_____
9:00 - 10:00 PM	_____	_____

Pro Tips:

- Include buffer time (15-30 min) between blocks

- Schedule deep work during your peak energy hours
- Batch similar tasks together
- Block time for breaks and meals

Getting Things Done (GTD) - Quick Reference

The 5 Steps:

1. **CAPTURE** → Write down everything (brain dump)
2. **CLARIFY** → Is it actionable? What's the next step?
3. **ORGANIZE** → Put it in the right place (calendar, list, etc.)
4. **REFLECT** → Review weekly, adjust priorities
5. **ENGAGE** → Just do it!

👉 BRAIN DUMP EXERCISE:

Everything on your mind right now (tasks, worries, ideas):

Personal Kanban Board

Create your own: Use 3 columns (sticky notes, whiteboard, or digital)

TO DO	DOING	DONE
	(Limit to 2-3 max)	

Rule: Limit "DOING" column to 2-3 items max to avoid overwhelm!

The Pomodoro Technique

How it works:

- 1. Choose a task
- 2. Set timer for 25 minutes → FOCUS
- 3. Take 5-minute break
- 4. After 4 pomodoros, take 15-30 minute break

Best for: Tasks you tend to avoid, maintaining focus, preventing burnout

👉 EXERCISE: Plan 3 Pomodoros for Tomorrow

Pomodoro #	Task	Time
1	_____	: AM/PM
2	_____	: AM/PM
3	_____	: AM/PM

Deep Work Blocks

Definition: 2+ hours of uninterrupted, focused work on cognitively demanding tasks.

Essential for: Complex problem-solving, learning new skills, creative work, research

👉 EXERCISE: Schedule Your Deep Work

Best deep work times for me (based on energy):

Morning ☐ | Afternoon ☐ | Evening ☐

My ideal deep work schedule:

Day	Time Block	Task for Deep Work
Monday	_____	_____
Tuesday	_____	_____
Wednesday	_____	_____
Thursday	_____	_____
Friday	_____	_____

Protect these blocks fiercely!

🎯 PART 4: MOTIVATION SCIENCE

The Motivation Myth

❌ **MYTH:** Motivation → Action

✅ **REALITY:** Action → Motivation

Start before you feel ready. Motivation follows action.

The Three Pillars of Intrinsic Motivation

Pillar	What It Means	How to Cultivate It
AUTONOMY	Control over your choices	Make decisions, set your own goals
COMPETENCE	Feeling capable	Track progress, celebrate small wins
RELATEDNESS	Connection to purpose/people	Find meaning, join communities

Finding Your WHY - Simon Sinek's Golden Circle

👉 EXERCISE: Define Your WHY

Career WHY:

I do what I do because: _____

This matters because: _____

Personal WHY:

My life purpose is: _____

This drives me because: _____

The Goal Achievement Formula

Answer these 4 critical questions for each goal:

GOAL: _____

Q1: What obstacles/difficulties stand between you and this goal?

(What's holding you back? Why aren't you there already?)

Q2: What additional knowledge, skills, or information do you need?

Q3: Whose help and cooperation do you need?

Q4: Who is the MOST important person to help you achieve this goal?

Insight: Often the answer to Q4 is... YOURSELF.

From Goals to Identity (Atomic Habits Framework)

Goal-based: "I want to run a marathon"

Identity-based: "I am a runner"

Goal-based: "I want to lose 20 pounds"

Identity-based: "I am a healthy person"

Goal-based: "I want to be a better healthcare provider"

Identity-based: "I am a compassionate, skilled caregiver"

👉 **EXERCISE: Reframe Your Goals as Identity**

Current Goal

Identity Statement

_____	I am _____
_____	I am _____
_____	I am _____

Pro Tip: Every action you take is a vote for the person you want to become.
