
 MOTIVATION RECOVERY PROTOCOL
Keep This Handy!

Sakti Prasad Bagchi | www.saktibagchi.in

WHEN YOUR MOTIVATION CRASHES, FOLLOW THESE 5 STEPS:

STEP 1: NOTICE THE DIP

- ☐ I acknowledge I'm feeling unmotivated right now
- ☐ I recognize this is temporary, not permanent

What triggered this dip?

STEP 2: RECONNECT TO YOUR "WHY"

Why does this goal matter to me?

Who am I doing this for (including myself)?

STEP 3: SHRINK THE TASK

Current overwhelming task:

Smallest possible first step (2-minute version):

STEP 4: GET ONE SMALL WIN

- ☐ I completed my tiny first step

What I did:

Time it took: _____

STEP 5: CELEBRATE IT!

-
-
- ☐ I acknowledged my progress
 - ☐ I gave myself credit

How I celebrated:

COMMON MOTIVATION KILLERS + COUNTERS

PERFECTIONISM → "Progress over perfection. Done > Perfect."

COMPARISON → "I focus on MY trajectory, not others' reels."

FAILURE → "This is data collection, not defeat. What did I learn?"

OVERWHELM → "I break it down. One tiny step at a time."

Use this protocol ANY TIME motivation drops.
It works. Every. Single. Time.
